

COCA Update

Clinician Outreach and Communication Activity (COCA)
CDC Emergency Communication System

August 31, 2015

This issue contains guidance documents relevant to current public health events and information from **August 17 – August 31**.

COCA Updates are disseminated biweekly. More frequent distributions may occur when there is emergency information or an event-specific update to share. The next COCA Update is scheduled for **September 14**.

For questions about these or other clinical issues, please write to us at coca@cdc.gov.

COCA News and Announcements

Upcoming COCA Webinars/Calls:

Weathering the Storm — Understanding the Mental Health Impact of Hurricane Sandy

Date: Thursday, September 17, 2015

Time: 2:00 - 3:00 pm (Eastern Time)

Dial In Number: 888-469-1370 (U.S. Callers); 517-308-9218 (International Callers)

Passcode: 3791890

Webinar: <https://www.mymeetings.com/nc/join.php?i=PW5219511&p=3791890&t=c>

Hurricane Sandy was an unprecedented natural disaster that resulted in deaths, injuries, and other disaster-related health effects. A substantial number of people exposed to the storm experienced mental health problems to include, post-traumatic stress disorder, depression and serious psychological distress. Research conducted by Project LIGHT, a collaborative effort between Mount Sinai, North Shore-LIJ and the Nassau County Department of Human Services, and the New York City Health Department examined mental health effects of the storm and identified subgroups of individuals who were most vulnerable to the hurricane mental health effects. The research was conducted through the application of multiple methodologies including the collection of survey data from residents of affected areas as well as analysis of Emergency Department data. During the COCA Call, participants will learn about a natural disaster related epidemiologic studies focusing on mental health issues. Participants will also hear about the implications of these findings on disaster preparedness and response activities and how clinicians can help address mental health among those impacted by disasters.

CDC News and Announcements

National Preparedness Month

September is National Preparedness Month, and more than 3,000 organizations across the nation will join CDC in encouraging Americans to take action to be prepared. This year, CDC will focus on communities of preparedness and will target messaging and products to the following groups:

- Week one: Family
- Week two: Neighborhood
- Week three: Workplace and School
- Week four: Global
- Final four days: Online Social Media Community

For each topic in September, CDC's Office of Public Health Preparedness and Response (OPHPR) plans to release Public Health Matters blog posts, social media messages (including a Twitter chat and a Thunderclap), and graphics. Visit CDC's National Preparedness Month web page for links to all of its National Preparedness Month content.

Travel Safety

Current Travel Warnings – August 27 (U.S. Department of State)

The U.S. Department of State issues Travel Warnings when long-term, protracted conditions make a country dangerous or unstable. Travel Warnings recommend that Americans avoid or carefully consider the risk of travel to that country. The State Department also issues Travel Warnings when the U.S. government's ability to assist American citizens is constrained due to the closure of an embassy or consulate or because of a drawdown of State Department staff.
