Testing for Zika

State, Local, Tribal, and Territorial Health Department Resources

UPDATED: CDC Zika Interim Response Plan
The purpose of this document is to describe the CDC response plan for locally acquired cases of Zika virus infection in the continental United States and Hawaii.

State, Local, Tribal, and Territorial Health Department Resources
Zika Community Action Response Toolkit (Z-CART)
The Z-CART outlines an approach to risk communication and community engagement planning and is intended as a template for state, local, and tribal agencies to adapt to their needs and to use for reviewing plans for communicating about Zika during the event of a locally transmitted Zika virus.

CDC News and Announcements

NEW: Joint Statement on Importance of Outpatient Antibiotic Stewardship from 12 National Health Organizations
CDC and The Pew Charitable Trusts, in collaboration with 12 national health organizations, released a joint letter on the importance of antibiotic stewardship in outpatient settings. The letter represents the commitment of these organizations to work together to expand current antibiotic stewardship efforts, fill research gaps around effective interventions for improving prescribing habits, and help health care professionals and patients use antibiotics appropriately in outpatient settings
http://www.cdc.gov/getsmart/community/partners/joint-statement.html

NEW: CDC Feature - Sudden Infant Death Syndrome (SIDS)
October is SIDS Awareness Month. Learn about infant deaths from SIDS and other causes, and take action to reduce the risk. Start by always placing babies on their backs when putting them to sleep.
http://www.cdc.gov/features/sidsawarenessmonth/

Public Health Grand Rounds: Changes in Clinical Diagnostics and Tracking Infectious Diseases
Tuesday, October 18, 2016, at 1 pm EDT
This session of Public Health Grand Rounds discusses how culture-independent diagnostic tests (CIDTs) are changing the landscape of diagnosing infectious disease. Speakers will also discuss how the tests are evolving, and how some states are adapting to using CIDTs in their public health systems.

CDC Science Clips: Volume 8, Issue: 40
Each week select science clips are shared with the public health community to enhance awareness of emerging scientific knowledge. The focus is applied public health research and prevention science that has the capacity to improve health now.

Travel Safety

Current Travel Warnings – October 7 (U.S. Department of State)
The U.S. Department of State issues Travel Warnings when long-term, protracted conditions make a country dangerous or unstable. Travel Warnings recommend that Americans avoid or carefully consider the risk of travel to that country. The State Department also issues Travel Warnings when the U.S. government's ability to assist American citizens is constrained due to the closure of an embassy or consulate or because of a drawdown of State Department staff.

- State-Specific Prevalence of Current Cigarette Smoking and Smokeless Tobacco Use Among Adults — United States, 2014
- Vaccination Coverage Among Children in Kindergarten — United States, 2015–16 School Year
- Vaccination Coverage Among Children Aged 19–35 Months — United States, 2015
### Food, Drug, and Device Safety

**NEW:** Multistate Outbreak of *Salmonella* Oranienburg Infections Linked to Shell Eggs – (CDC)

CDC, the Missouri Department of Health and Senior Services and Department of Agriculture, several states, and the U.S. Food and Drug Administration (FDA) are investigating a multistate outbreak of *Salmonella* Oranienburg infections.

[http://www.cdc.gov/salmonella/Oranienburg-10-16/index.html](http://www.cdc.gov/salmonella/Oranienburg-10-16/index.html)

**NEW:** Homeopathic Teething Tablets and Gels: FDA Warning - Risk to Infants and Children – (CDC)

The FDA is analyzing adverse events reported to the agency regarding homeopathic teething tablets and gels, including seizures in infants and children who were given these products, since a 2010 safety alert about homeopathic teething tablets.

**MedWatch: The FDA Safety Information and Adverse Event Reporting Program** – (FDA)

MedWatch is your FDA gateway for clinically important safety information and reporting serious problems with human medical products.

**FoodSafety.gov: Reports of FDA and USDA Food Recalls, Alerts, Reporting, and Resources** – (HHS/USDA/FDA/CDC/NIH)

Foodsafety.gov lists notices of recalls and alerts from both FDA and the U.S. Department of Agriculture. Visitors to the site can report a problem or make inquiries.
